Essentials of Frontline Medicine Journal (ISSN: 3062-1704)

Volume 2 - Issue 3

Welcome to the latest issue of Essentials of Frontline Medicine Journal. As we present this year's last issue, we continue our mission to support evidence-based practice and to advance scholarly dialogue in general medicine and primary healthcare.

This issue brings together a diverse range of high-quality contributions that reflect the evolving challenges and innovations shaping frontline medical practice today. The articles explore critical themes including preventive care, patient-centered approaches, health equity, and the integration of research into everyday clinical decision-making. Together, they offer meaningful insights that aim to strengthen healthcare delivery and improve patient outcomes across diverse settings.

We extend our sincere appreciation to our authors, reviewers, and editorial team whose dedication and expertise have been essential in maintaining the scientific rigor and integrity of this publication. Their collective efforts ensure that the journal remains a trusted platform for sharing knowledge and fostering collaboration within the medical community.

As we continue to grow, we remain committed to promoting excellence, accessibility, and innovation in medical publishing. We invite our readers to engage with this issue, share its insights, and contribute to future editions of Essentials of Frontline Medicine Journal (ISSN: 3062-1704) as we work together to advance the future of frontline healthcare.

Sincerely,

Editor-in-Chiefs

Mustafa BAYRAKTAR, Suat SİNCAN
